This Year Is Going To Be Inspiring

At BHEF, we have always strived to provide our students with well-rounded and unique experiences that go far beyond a basic public education, no matter what the circumstances.

We are excited to work closely with the School Board, District Office and School Site Admin to support our students' needs as much as possible. This includes a robust commitment fostering innovative and creative ways to deliver instruction in our teachers and staff.

Your contribution will help ensure that our students have access to the best education and a bright future.

Sincerely,

Farrah Dodes
BHEF President

- Walk-On Coaches
- Service Learning
- Career Day Materials
- PBIS Program
- Link Crew Advisors

NEW FOR 2021!

BHEF is proud to fund the Instructional Coach

The Instructional Coach will partner with teachers and staff to set goals, identify and model teaching strategies, and provide support and student growth opportunities. As part of the BHUSD Strategic Plan, the Instructional Coach will work with our teachers to enhance our students' educational experiences and academic outcomes throughout the entire district. The Instructional Coach will support all new teachers in the district, continue to support the partnership that BHUSD has with Stanford University for National Board Certification for our teachers, and support community stakeholders on understanding the BHUSD education system.
