This Year Is Going To Be Different

At BHEF, we have always strived to provide our kids with well-rounded and unique experiences that go far beyond a basic public education, no matter what the circumstances.

Though the year ahead is unpredictable, we'll be working closely with the School Board, District Office and School Site Admin to support our students' needs as much as possible. This includes a robust commitment fostering innovative and creative ways to deliver instruction in our teachers and staff.

We are in uncharted territory, and it will require all hands on deck. Your contribution will help ensure that our students do more than simply "make it through" this time -- they will emerge even stronger on the other side.

Sincerely,

Farrah Dodes
BHEF President

BHEF IS PROUD TO SUPPORT THE PBIS PROGRAM & DISTRICT COORDINATOR

In collaboration with the Elementary, Middle, and High School Counselors, the Positive Behavioral Interventions & Supports Program and District Coordinator will work to implement a multi-disciplinary program that improves social, emotional, and academic outcomes for all students in our district.
